Prompt measures have been adopted by the President, in relation to the difficulties of our northern frontier. The record outrage committed, it may be presumed without anthrity from the British Geverancest in Canada, has determined the executive to require from the state of New York, a sufficient military force to protect the frontier from similar attacks as future. General Scott has been ordered to take the command of the troops that may be called noto service; he is now probably arrived at the scene of action.

A memorial has been presented by John Roam and other Cherokee chiefs remonstrating against and advant the process of the content of the Resistation, and advant the force the process of the Covernment.
